

# Montrose Community Schools Office of the Superintendent

---

Montrose Families

Montrose Community Schools is committed to providing an exceptional learning experience for all students. After much deliberation and conversations with administration and instructional staff, it is evident that for us to deliver on this commitment, more time is needed. We know that it is necessary to provide the very best start of the school year for our students, and we will accept nothing less.

For these reasons we have made the very difficult decision to push back the start of our 2020-2021 school year until September 8, 2020. Our intention is for all students to begin school on Tuesday, September 8, for face to face and/or virtual learning.

I realize that this move may be inconvenient for many families but it is imperative that we are ready to open schools safely and successfully.

Please watch for more information to come soon from your student's school buildings regarding any changes this might cause for building tours that were scheduled for this week.

As always, your patience, kindness and support truly means the world to us and is appreciated during this challenging time.

Go Rams!

Linden A. Moore, Ph.D.  
Superintendent  
Montrose Community Schools
